**If you've ever grappled with the inefficiencies of traditional paper bills of lading—fumbling through crumpled, damaged documents or worrying about misplaced paperwork—Rebus eBOL is the solution you've been waiting for.**

### **Transition to a digital workflow with Rebus eBOL**

Rebus eBOL integrates seamlessly with SmartBOL, allowing you to streamline the management of your bills of lading. Say goodbye to rifling through dusty filing cabinets in search of vital documents. With just a few clicks, you can retrieve any historical bill of lading within the Rebus platform, simplifying your supply chain management process effortlessly.

### **Increase Efficiency with Faster Billing Processes**

Rebus eBOL facilitates a seamless transition from paper-based bills of lading to a fully digitized process, requiring minimal human intervention. Users can access and review all BOLs from the digital archive, complete with creation and signing timestamps, and download signed BOLs in PDF format.

### **Designed to integrate seamlessly with Smart BOL**

Unlock a world of possibilities with SmartBOL's advanced features integrated into Rebus eBOL. Seamlessly support standard VICS BOLs and custom BOL formats to meet your specific needs. Effortlessly capture digital signatures at kiosks, on mobile devices, or tablets. Simplify check-ins and check-outs using QR codes for a swift, hassle-free process. Instantly send eBOLs via email or SMS to drivers, ensuring immediate access to crucial documents. This powerful integration brings unmatched efficiency, flexibility, and convenience to your BOL management.

***"Their creativity in devising solutions to complex problems really impressed me. [They] understand our business. That makes such a difference, and you won't find that with just any supplier."***
